The preliminary team will be selected based on selecting the top ranked eligible and nominated athletes up to the maximum athletes per event. For certain events, a minimum performance standard may be set.

The preliminary team will be modified to meet the constraints of selection. Athletes' performances will be scored as a percentage of the current Australian Best Performance for the event. The total of an athlete's scores in their selected events represents their value to the team.
To reduce the team size to be less than or equal to the maximum athletes allowed:

| Step | Action |

| 1. | Remove the athletes with the lowest total scores |
| 2. | Reallocate the events to other team members. |
| 3. | Consider results achieved by athletes in other competitions other <br> than State Championships when reallocating. |

Consideration will also be given to the individual athlete's workload for the ALAC competition, and potential relay compositions.

Athletes

Replacement
Athletes

Where an athlete has too many events, they will be removed from their lowest scoring event(s). Those events will be allocated to other members of the team as above. This may include removing an athlete from an individual event to select them in a relay team. Selectors may consult with individual athlete's coaches to help determine the best event mix for an athlete.

Athletes will not be selected merely to fill the team numbers. If performances would not be competitive at the national level as compared to previous years' ALACs they will not be selected. This includes whether their performances are the best in the State.

The Selectors will recommend relay teams as part of the team selection. These will be finalised by the team management in preparation for the competition.
The $4 \times 100 \mathrm{~m}$ teams will generally be the four athletes in the team with the best 100 m times.

The Medley relay team will consider each athlete's 100m, 200m and 400 m times. An estimated 300 m time will be determined for each athlete. A combination of athletes will then be selected that has the potential to achieve the best time.

Eligible and nominated Multi-Class athletes up to the maximum athletes per event based on their rankings at the Little Athletics SA State Individual Championships will be selected. This is provided they have met any Little Athletics Australia qualification standards. Athletes will be ranked using the Multi-Class Baseline Scoring Tables.

Where a selected athlete withdraws from the team prior to the competition, replacement athletes may be selected at the sole discretion of the selectors.
